"You are summoned to the opening of this peculiar living will in the testator's lifetime; a testament of universal memories, roots and identities. Fields, a neighbourhood and a treasure map. A man with a glass eye who loves musicals, and sings out of tune. A commitment to simplicity and truth, good truth, the truth of theatre. Whoever wants to inherit must save the world. Welcome." Zum-Zum Teatre

Zum-Zum Teatre is a professional theatre company founded in 1994 in Lleida by three actors of the Municipal Theatre Group. Its objective is to produce shows of quality and commitment, with the slogan "theatre for adults from the age of four". Since its foundation the company has produced about twenty shows, with over 4,000 performances all over Europe.

"We want to convert our performances into unique moments that expand the limits of the imagination and offer children and adults the window of theatre through which to look at the world. We want to create shows that prompt more questions than answers, multidisciplinary proposals that provoke emotions. We want to perform theatre committed to aesthetics and to society. That is our permanent commitment." Zum-Zum Teatre
